

Forms, Buttons and Repeaters in Wix

Wix Forms

Forms in Wix let visitors **submit information** – for example, contact forms, booking inquiries, surveys, newsletter sign-ups, etc. They can send submissions to your email, store them in your Wix Dashboard, or trigger automated workflows.

Adding a Form:

1. **Open the Wix Editor**

○ Go to your site → “Edit Site”

2. **Add a Form**

○ Click “+ Add → Contact & Forms → Form”

○ Choose from templates (Contact Form, Subscription Form, etc.)

3. **Customize the Form**

○ Click a field → **Settings**

▪ Change field type (text, dropdown, checkbox, etc.)

▪ Make required / optional

▪ Change placeholder text

○ Edit the **Submit** button’s text and design.

4. **Connect Submission Settings**

○ Select the form → click “Form Settings”

○ Choose what happens on submit:

▪ Send an email notification

▪ Store responses in the “Form Submissions” database

▪ Redirect to a page or show a thank-you message

5. **Publish** to make it live.

Buttons in Wix

Buttons are interactive elements that can:

• Link to other pages

• Trigger actions (submit forms, open lightboxes, scroll to sections)

• Run custom code with Velo

Add & Configure Buttons

1. **Add a Button**

○ Click “+ Add → Button → Text / Icon Button”

○ Place it anywhere on the page.

2. **Set Button Action**

○ Click the button → “Link”

○ Choose:

▪ Page (internal)

▪ URL (external)

▪ Anchor

Forms, Buttons and Repeaters in Wix

- Email / Phone
- Document download
- 3. **Customize Design**
  - Use the Design panel for hover, click, and disabled states.

 **CBSE**

**Repeaters in Wix**

A **Repeater** is a layout element that *repeats a set of items dynamically* – perfect for displaying lists like:

- Products
- Team members
- Blog posts
- Testimonials

Each “item” in a repeater can show different data but share the same design structure.

 **ICSE**

**Using Repeaters**

1. **Add a Repeater**

- Click “+ Add → List → Repeater”
- Choose a layout (rows, grid, etc.)

2. **Design the Item**

- Inside the repeater, add elements (text, image, button)
- Style them how you want

3. **Connect to Data**

- Add a **Database Collection**: “Content Manager → Add New Collection”
- Connect repeater elements to database fields:
  - Click element → “Connect to Data”
  - Bind text, image, etc. to the right fields

4. **Preview / Publish**

- Each repeater item will display one record from your data.

**Solved Example: Create a Simple Zomato-Themed Website**

To create a **three-page** restaurant discovery website using:

- **Themes** for color and style
- **Buttons** for navigation
- **Forms** to collect user info
- **Repeaters** to display restaurants

**Course  
&  
Test Series**

**Forms, Buttons and Repeaters in Wix**

Website Structure

Page	Purpose
 Home	Introduce your site and show featured restaurants
 Restaurants	Display restaurant listings using a repeater
 Contact	Add a simple contact form

**Step 1: Set Up the Theme**

1. Open [Wix.com](http://Wix.com) → Create a new site.
  2. Choose the “Restaurant” or “Food Blog” category.
  3. Pick any clean template – e.g., “Restaurant Directory” or “Food Delivery.”
  4. Customize the theme colors to look like Zomato:
    -  Red (#E23744) - primary color
    -  White - background
    -  Black / Gray - text and accents
  5. Set global fonts: *Poppins* or *Montserrat*.
- NOTE: This keeps your whole website looking consistent.

**Page 1: Home Page**

**Purpose:** Welcome visitors and show the purpose of your site.

**Add These Sections:**

1. **Header:**
  - Your logo or text like “Food Finder” or “Zomato Clone.”
  - A navigation menu with buttons:
    - Home
    - Restaurants
    - Contact
2. **Hero Section:**
  - Add a big image of food as background.
  - Add a heading: “Discover the best food around you”
  - Add a short tagline: “Browse top-rated restaurants near you.”
3. **Featured Restaurants (Repeater):**
  - Go to Add → List & Grids → Repeater
  - Inside the repeater, add:
    - Image
    - Restaurant Name (Text)
    - Cuisine Type (Text)
  - Connect this repeater to your restaurant collection (see below).

**Page 2: Restaurants Page**

**Purpose:** Display all restaurant listings in a neat grid.

**Step 1: Create a Data Collection**

## Forms, Buttons and Repeaters in Wix

1. Go to **Content Manager** → **Add New Collection**
2. Name it: **Restaurants**
3. Add fields:

Field	Type	Example
name	Text	Pizza Villa
cuisine	Text	Italian
location	Text	Mumbai
image	Image	(Upload restaurant photo)
rating	Number	4.5

4. Add 5-6 sample restaurants.

### Step 2: Add the Repeater

1. On the Restaurants page, add a **Repeater**  
(Add → List & Grids → Repeater)
  2. Inside the repeater, add:
    - Image (for restaurant photo)
    - Text (name)
    - Text (cuisine)
    - Text (location)
    - Text (rating)
  3. Click on repeater → **Connect to Data** → choose **Restaurants Collection**
  4. Link each element:
    - Image → image field
    - Texts → name, cuisine, location, rating
- NOTE: Now the repeater automatically displays your restaurants from the collection!

### Page 3: Contact Page

**Purpose:** Let visitors reach out or send messages.

#### **Add a Simple Form:**

1. Go to **Add** → **Contact & Forms** → **Contact Form**
2. Use default fields:
  - Name
  - Email
  - Message
  - Submit Button
3. Under **Form Settings**:
  - Store submissions in "Form Submissions"
  - Optionally send an email notification
4. Style the form with your theme colors (red buttons, white background).

&  
Test Series

Forms, Buttons and Repeaters in Wix

**Step 4: Style Everything**

Keep your site consistent:

- Use red buttons and accents.
- White or light-gray background.
- Same font on all pages.
- Add nice food images for visuals.

**Step 5: Publish and Test**

1. Click Publish
2. Visit your live website
3. Check:
  - Do navigation buttons work?
  - Does the repeater show all restaurants?
  - Does the contact form submit properly?
