Name - Satish  
Course - DCS+

Father's name - Sh. Balak Ram  
Teacher's name - Diksha mam

Q:-1 Explain the following terms:

- Power supply
- Motherboard

Ans - • Motherboard :- The motherboard is the backbone that ties the computer's components together at one spot and allows them to talk to each other.

- Power supply: Power is the backbone of any electronic system and the power supply can be the critical difference between a device working at optimum levels and one that may deliver inconsistent details.

Q:-4 What do you understand by output devices?  
Explain any 2 devices in detail.

Ans: A piece of equipment / hardware which gives out the result of the entered input, once it is processed.

For example - printer, monitor, etc.
