

Questions - Answers

Q1

i) Diligence :-

A computer can work hours without ceasing of course. If a million of tasks are performed, a computer can do every task with the same accuracy.

ii) Versatility :-

It means the capacity to work with different types. We can create payroll slips and fast movement as we can create files - relation on our computer.

Q2

Ans

Mention any 3 characteristics of computers ?

1. Speed
2. Accuracy
3. Diligence

1. Speed :-

A computer is very fast and accurate machine. It takes only few seconds to process the instruction which we take hours to complete.

2. Accuracy :-

The accuracy level of a computer is very high. A computer can perform very different tasks with the same accuracy.

3. Diligence :-

A computer can do work hours without creating errors. If a million of tasks perform it is able to perform different tasks with same accuracy.

Q5
Ans5

Explain the four basic functions of computer :

1. Input :-

Input is a raw information entered into a computer from input devices. It sends data to C.P.U. It is the collections of number, letters and images.

2. Processing :-

It is the sequence of actions taken data into it information which is useful to the user.

3. Output :-

Output is the processed data into the computer after data processing. Output is also called as result. We can save these results for the future use.

4. Storage :-

It stores data and information permanently. We can save our data for future use.

Q3 Give any three difference between speed and accuracy in terms of computer?

Ans3

1. Speed :-

1. A computer is very fast machine.
2. It takes different tasks with same speed.
3. It takes only few seconds to process the instructions.

2. Accuracy :-

1. The accuracy level of a computer is very high.
2. Computer is very accurate machine.
3. Computer can do every calculation with the same accuracy.

Q4 Give any 3 reasons why computers are becoming important today's life?

Ans4

1. With the help of computer we save our data.
2. With the help of computer we can create presentations.
3. Reduce leakage of information.
4. Reduce paper work.
5. With the help of computer we save our time.
