Q.1) first generation computer used vacuum tubes for circuitry and magnetic drums (1940-1956)

- Q.2) 1) first generation (1940-1956)
 2) second generation (1956-1963)
 3) third generation (1964-1971)
 4) fourth generation (1971)
 5) fifth generation (Present and beyond)
 Super large computers

Q.3) based on

Classification based on size

↓
 mini computer, mainframe computer, Super computer

Q.4) digital and analog computer

Analog →

~~digital~~ these computer carry out arithmetic and logical operation by manipulate and processing data.

digital computer → these computer to work with collecting and binary system digits.

Classifications based on work.

- ↓
- Analogue Computer
 - Digital Computer
 - Hybrid Computer

1) Analogue computer → these computer carry out arithmetic and logical operation by manipulating and processing Data.

2) Digital computer → these computer work collecting and binary digits.
