

Name - Pankaj

Course - CCC BA

Ans-2 Application of Computers

Some of the areas where computers are being used are as follows. These applications in detail are

- i) Banking: Computers are used in banks for electronic money transfer, making deposits, vouchers, bank sheet etc.
- ii) Education: Computer is a very effective tool which can be used for education teaching and learning, result processing, student data processing, notes preparation, etc.
- iii) Offices: Computers are used for preparing reports, storing/deleting reports, updating reports, etc. in office.

Ans-3 Laptops and general-purpose CPUs are not considered to be embedded computers for several reasons. First, the word "embedded" implies that the computer must be contained in a larger mechanical or electronic system. The word "computer" is typically thought of as a computer that stands on its own.

Ans-4 Types of Computers

- i) Data Unprocessed rows, facts and figures, like numbers, text on piece of paper etc.

ii) Information :- When data is processed, organised & presented in a given context so as to be useful. then it is called information.
