Subject & Computer

Answers &

Ans 1)

Ans 2) Application of Computer :- [Any 3]

1) Banking & computers are used in bank for electronic money transfer, making deposit, voucher, bank sheet, etc.

2) Education & Computer is a very effective tool which can be used to teaching and learning result processing, student data, etc.

3) Offices & Computers are used for preparing reports, storing/deleting reports, etc in office.

Ans 3) Laptops and general CPU's are not considered to be embedded computers for several reasons. First, the word "embedded" implies that the computer must be contained in the larger mechanical and electronic system. The word "computer" is typically thought of as a computer that stands on its own. Second, while the embedded computer is designed to perform a specific task, a laptop is capable of running and downloading various programs and software.

Ans 4) * Data & Unprocessed raw facts and figures, like numbers, that on piece of paper are known as data.

* Information & when data is processed organised or presented in a

given context so as to be useful, then it is called information.
